

# REVOLUTIONIZING YOUR REPAIR SHOP

## Save Time. Make More Profit.

Tekmetric's all-in-one shop management platform makes it easy for all shops, especially Certified Service Centers, to grow and cultivate lifelong customers. And because Tekmetric is cloud based, you can check shop performance and make confident decisions for your business anytime from anywhere.

### How You'll Benefit:

#### Digital Vehicle Inspections (DVI)

Built-in and customizable. Add canned jobs, pictures, videos and more.

#### Parts integrations

Directly connect to PartsTech, RepairLink, MyPlace4Parts, and more.

#### True 2-way texting

Send DVI, estimates and invoices to your customers and get responses, approvals & payments.

#### Estimating and Workflows

Built-in labor guide, parts matrices and easy to follow workflows make building a repair order simple.

#### Reporting

Built-in reports give you visibility on financials, employee performance, customers and parts. Reports available for owners with multiple shops.

#### Mobile Friendly

Accessible via laptop, desktop, tablet or phone – anywhere there is a web browser and wifi or cell signal.

#### Affordable Plans

Choose the right plan for your shop or group of shops, with no contract.

#### Integrated Payments

Upgrade your customer's experience with modern terminals, text-to-pay, and the industry first buy now, pay later option.

#### Continuous Improvements

Tekmetric releases 2-3 new features monthly, guided by feedback from our customers.

#### Growth

Tekmetric customers see the average value of every repair order increase by 17% within their first 90 days.
