

ABOUT US

Current Office Solutions

... Your Single Source

Current Office Solutions (COS) was founded in 1991 by Terry Rummel, a native of Pioneer, Ohio, with a simple vision: to provide outstanding service while giving back to the community. From his parents' garage repairing VCRs and office machines, Terry built COS into a trusted provider of copiers, office equipment, furniture, and supplies. In 2010, he came full circle by acquiring the very company where his career began, solidifying COS as a cornerstone of the local business community.

Today, Terry's daughter, Nicki Cogswell, leads COS with the same community-first mindset. With over 19 years at the company, Nicki continues to prioritize long-term relationships, exceptional service, and supporting local organizations. COS doesn't believe in high-pressure sales tactics—we believe in partnership. We take the time to understand each organization's unique needs and work side-by-side to help them operate more efficiently and effectively.

As a family-owned business rooted in small-town values, COS proudly reinvests in the communities we serve. From sponsoring school athletics to actively participating in the Chamber of Commerce, we believe that when local businesses thrive, the entire community benefits. Choosing COS means choosing a neighbor, a supporter, and a team that genuinely wants to see your organization—and your town—succeed.
