Each fall during conferences, Indian Community School hosts a high school fair for 6-8th grades families.

The event is held on the second floor hallway between the middle school lockers and 7th & 8th grade classrooms.

Representatives from many of the area high schools are present to discuss what makes their high school unique, what their school has to offer, and help our students determine which high school option will best suit their interests after graduating from ICS.

Each family in attendance will be eligible to win a gift card.
