

# The Buzz From The Bee Hive

## Busy Bee Bulletin

---

We have sent home your child's Observation. This is a developmental checklist of age appropriate skills, as well as what we observe of your child at school. It is a wonderful tool to let us and you know if we have any concerns, or areas to add to your child's education plan. Your input and comments are helpful and we look forward to reading them. We will return a copy for you to keep after you return a signed and commented copy to us. We hope you enjoy reading them as much as we enjoyed writing them. We are also doing fifteen minute conferences this year coming up in the next two weeks.

Please continue to send in labeled snow pants, boots, etc so the kids may enjoy their time outside when there is snow on the ground. Hats, mittens, and winter jackets are needed every day this time of the year.

## Curriculum Highlights

---

Color of the Month: **Pink** Encourage your child to point out pink objects; they may even bring them to school to share. Ask your child the sign for pink.
