
The Buzz From The Bee Hive

Busy Bee Bulletin

Spring is here! Mornings and afternoons can be chilly. Please send your children to school in layers. Hats and mittens are sometimes needed. However, we are outside more often and children should come to school with sunscreen on and have an extra in their wall pockets.

Your children are sprouting like the flowers on our pathway. ! Please check their extra clothes bins for items that may be too small.

We have been learning more self help skills. Your children have been putting their coats on using the "magic flip", ask them to show you how! Children are also capable of putting on their own shoes with just a little assistance. They can also pull up their own zippers, just get them started. Children using the toilet need clothes that they can pull up and down. Onesies, belts, tights and snaps make it hard to "do it myself!" Also, we will be starting our grocery store please save your empty boxes from food and bring them in this month.

Curriculum Highlights

Color of the Month: **Spring and Nature colors**. Encourage your child to point out pastel colored objects; they may even bring them to school to share. Ask your child the sign for white.
