Media Advisory: Cape Cod Healthcare Expands COVID-19 Testing Capacity

Effective June 24, 2020, Cape Cod Healthcare will open a drive-through testing site at Falmouth Hospital in order to serve the upper Cape with expanded COVID-19 testing availability. This second site will add additional testing capacity to the region and supplements the existing mid-Cape testing facility on the campus of Cape Cod Community College.

Additionally, testing is available to any person on the Cape and Islands with a doctor's order, including those with a physician not affiliated with Cape Cod Healthcare and/or not located on Cape Cod. Individuals without a primary care physician can call the dedicated call center (508-862-5595) to be screened for testing by a clinical provider by phone.

For more information about COVID-19 testing at Cape Cod Healthcare, visit capecodhealth.org/coronavirus.
