AFTER SCHOOL CLASSES

BRICKS 4 KIDZ JR. ENGINEERING LEGO CLUB AT PLEASANTDALE ELEMENTARY

Fall Session: 7 Week Session on Mondays, 3:20-4:20pm -
Open to grades 1-4

October 17-December 12, 2016

** (No school/no class Oct. 31 & Nov. 21)

Theme: *Wheels In Motion*

These wheels are ready to roll! Students will use LEGO® Bricks, axles, pulleys, gears, motors and more to build a variety of models on wheels. Some are familiar vehicles, such as a fire engine and delivery truck. Other amazing models, such as the Rescue Robot and K-9 Bot, will give students more to learn. Do you have a need for speed? Put your Speed Bot model to the test as you race against others using remote controls! We'll explore concepts of speed and force, and gain non-vehicle knowledge from the unconventional *Wheels*

In our 7 week session, students will experience hands-on engineering fundamentals as they build motorized models using LEGO® bricks! Our curriculum introduces children to S.T.E.M. concepts while important skills such as sequencing, following step-by-step directions and special/relational thinking are developed. All materials will be provided. At the end of the 7 week session, students will go home with a custom LEGO mini-figure!
