## Product Safety Recall

### HEAD recalls HEAD ski boots

### With fluorescent yellow shells

13.03.2026

#### HOW TO IDENTIFY THE MODELS

HEAD is conducting a voluntary recall of certain boots with fluorescent yellow boot shell components. The model article code consists of six digits and it is marked in the heel area on the inner side of the left boot, as shown in the photos below

#### WHY IS THE PRODUCT BEING RECALLED?

The fluorescent yellow boot shell can crack during normal use, which could affect the stability of the boot and increase the risk of loss of control and injury while skiing.

#### WHAT TO DO

- Stop using the product immediately.
- Contact HEAD using the details below to report your product.
- Follow the instructions provided by HEAD to return the product and receive a replacement or refund

#### REMEDIES FOR CONSUMERS

Consumers affected by this recall can receive a free replacement pair of ski boots of equivalent level. Please contact HEAD using the details below to arrange the chosen remedy.

#### CONTACTS

Local assistance is provided by HEAD USA

Email: [info@us.head.com](mailto:info@us.head.com) Phone: 1-800-874-3235, option 3

**We appreciate your understanding and apologies for any inconvenience caused**

**Spread the word about this recall with your family members and friends.**

**Conducted in cooperation with the US CPSC and Health Canada. Post until 12/2026.**
