Your donations in 2019 made it possible for us to support 27 legislative candidates in last November's statewide election cycle, all of whom are now in office. These individuals understand the needs of our organization and are responsive to our concerns. But we can't stop there.

We need to continue to elect people who are willing to stand up for our issues and realize the fundamental roles family physicians play in their communities. With your support, our voice can be even stronger as we face issues that impact our practices, our patients and healthcare policy.

We encourage you to make an annual [donation to the PAC using our online form](#). We both personally contribute a set amount each month and FamDocPAC charges our credit card. The box on this page lists our giving levels. Please join us in supporting FamDocPAC today.

Sincerely,

Katherine Patterson, MD, FAAFP
