

Faculty Disclosure

Current guidelines state that all speakers and planners of a CME approved activity must disclose to the audience any real or apparent conflict(s) of interest related to the content of the presentation. Faculty are also expected to inform the audience whether or not presentations will include discussion of an unlabeled or investigational use of a product or device not yet approved by the FDA for the use being presented. All disclosures will be available to each attendee in the activity packet, which will be distributed prior to the beginning of the conference.

Sponsors

Sponsorship is being sought from multiple companies/ organizations. These will be fully disclosed in the conference syllabus.

the health of the family

*An update on
Family Medicine
& care of
the entire
family*

Friday, May 5 & 6, 2017 HealthWorks!

219 South Industrial • Tupelo

Thank you for participating in our annual Family Medicine conference.

We are pleased to see so much interest in the field of family medicine and in good quality, reliable patient care.

It is our goal to give you a wonderful experience as you continue your journey of providing current medical care to the entire family.

This year's conference will begin with a review of gout with a focus on diagnosis and treatment updates.

We will then move on to an update on COPD and inhalers with focus on the multitude of new inhalers on the market. Following a quick break we look into heart failure and the current updates in guidelines and treatment options.

After a nice lunch we will discuss the important topic of clinic coding before reviewing appropriate antibiotic use and antibiotic stewardship in the clinic setting. The afternoon brings us to screening for skin cancer.

And finally we will wrap up with a hands-on workshop on casting and splinting.

We hope you will return for our second day of this event for our lineup of controlled substance/prescribing talks. We are offering five prescribing credits for our Saturday session to assist you in meeting licensure requirements.

On behalf of the Family Medicine Residency Center and North Mississippi Medical Center, thank you for coming. We truly hope our Family Medicine Update conference will not only supplement your learning, but renew your love of caring for an entire family.

– NMMC Family Residency Center Faculty & Residents

Location

This conference will be held at HealthWorks!, 219 Industrial Drive, Tupelo, Mississippi. We strive to keep our conferences as comfortable as possible. We recommend individuals who are cold-natured bring a sweater or jacket to help ensure their comfort.

Other Information

NMMC fully complies with the legal requirements of the ADA and the rules and regulations thereof. If any participant of the educational activity presented by NMMC is in need of special accommodation, please do not hesitate to call (662) 377-3900 at least two days prior to activity.

For more information

For more information, call (662) 377-3900.

Program Information

A family is a complex unit that influences the care of each member. This makes family medicine a unique and exciting field of practice. The purpose of this two-day update is to discuss important daily topics and challenges health care providers face when caring for an entire family. Physicians, nurse practitioners, nurses, pharmacists, dietitians, therapists, social workers, pastors, health care administrators and other health care professionals will benefit from knowledge gained through the different sessions offered during this symposium.
