

## **WAIVERS & ARRIVAL**

### **WAIVERS**

We have two separate waivers which must be completed before participation: Obstacle Island Waiver & Cable Park Waiver. If participants will engage in both activities, both waivers are required.

Please note, there is a safety video at the end of the Cable Park Waiver, which is required before activity participation. Please watch the short video after waiver completion to ensure no delays when you check-in. If the safety video has not been watched prior to arrival, you must watch it in the Pro Shop before you can participate in the Cable Park activities.

Our waivers can be found [HERE](#).

### **ARRIVAL**

We recommend all participations arrive 30 minutes prior to scheduled start time. Upon arrival, please check-in through our Pro Shop (main office building) which is the largest single-story building with a large shark mural painted on the outside. You can expect the following at check in:

1. Participant waivers and safety video completion will be verified
2. Admission wrist bands and rental equipment will be issued
3. General directions & instructions

Please note, the obstacle island is a structured and lifeguarded activity. Sessions begin promptly on the hour, every hour, with a ten-minute break in between each session. Capacity per session is limited and for missed session time, additional or make-up time is not provided. For this reason, we strongly encourage guests to arrive early and have waiver completed prior to arrival.
