Hit the Road

this summer with a low-rate auto loan.

Summer is calling, and so are road trips, beach getaways, and weekend drives with the windows down. If your current ride isn't quite up to the adventure—or if your monthly payment is cramping your vacation budget—now is the perfect time to take a look at an AlliedFCU auto loan.

Our low rates mean lower monthly payments, leaving more room in your budget for gas, snacks, and the occasional roadside attraction.

And we've just made the auto loan process easier than ever with two new tools designed with you in mind:

Online Vehicle Search Tool – Find the perfect car, truck, or SUV without ever leaving your couch. Browse inventory, compare options, and get pre-qualified, all in one place.

FlexDrive Loan – Looking for serious payment savings? Our FlexDrive Loan offers monthly payments that are typically 30 to 40% lower than a traditional auto loan.

Halfway Through 2026— Time for a Financial Check-In

Can you believe we're already halfway through 2026? Now is the perfect time to pause and look at where your finances stand. If you're not quite on track with the savings goals you set in January, there's still plenty of time to get back on track.

Opening an AlliedFCU Club Account is one of the easiest ways to catch up. With six full months left, you can seamlessly save for holiday gifts or a well-deserved vacation without breaking your budget.

Here's how Club Accounts work:

Choose a Holiday Club Account or a Vacation Club Account based on what you're saving for.

Set it and forget it - Schedule automatic transfers from your checking or savings account on a schedule that works for you.

Watch it grow - Your funds earn dividends while they sit, so you're not just saving—you're earning, too.

Cash out when it's time - Your Holiday Club funds are automatically transferred to the checking account, in time for the holiday shopping season, and Vacation Club funds are available when you're ready to hit the road.

Saving a little each week or each paycheck adds up faster than you might think—and it's a whole lot easier than scrambling to cover big expenses all at once.
