

Why Join The Woman's Democratic Club?

I love the WDC because they do such important work in such perilous times.

In his farewell address, President Obama said,

“Change only happens when ordinary people get involved, get engaged and come together to demand it....”

Yet after the election, there was a pervasive feeling of powerlessness. Many people did not know how to get engaged.

So if you are a perspective member who doesn't quite know how to get involved I would say:

COME JOIN THE WOMAN'S DEMOCRATIC CLUB!

It is an amazing organization.

Donald Trump may be appointing a climate change denier as its next head and many in his cabinet are friends of the energy industry—but the WDC *already has* an advocacy group working to combat fracking in Maryland.

Donald Trump may want to repeal The Affordable Care Act but WDC *already has* an advocacy group working on health issues to protect the citizens of our state and monitoring how federal government actions will impact Marylanders.

The WDC is even organizing training in Annapolis for people who wish to be involved in lobbying Maryland legislators about important issues such as criminal justice, employment and economic security, health care, and children.

So for all potential members I remind you of what the President Obama said to us this week:

“If something needs fixing, lace up your shoes and do some organizing.

Show up. Dive in.”

AND

JOIN THE WOMAN'S DEMOCRATIC CLUB!

Learn how to effectively make a difference.
