PARTNER REMINDERS

- Please do **not** redistribute the naloxone to other organizations in bulk. It is intended to equip your staff and to be distributed to individual clients or the general public. If other agencies request naloxone from your organization, please refer them to OD@SNHD.ORG.
- Every person that is distributed naloxone by your staff should receive a brief training.

Posters should be posted near naloxone boxes when no staff interaction takes place. Staff should give a brief training to the person they distribute to. The important points that should be mentioned are:

Signs of overdose: - Unresponsive, not breathing, cyanosis, wheezing/gurgling Call 9-1-1 and wait for ambulance

Spray naloxone in nose every 2 mins: - continue dosing every 2 mins until breathing resumes or medical help arrives

Perform CPR - if certified, perform chest compressions and rescue breaths **Recovery Position -** lay the person on their side when not performing CPR or spraying naloxone

Good Samaritan Law
