NIHL Team Standings Wrap-up

All NIHL divisions have begun their 2016-2017 games. In nearly all the playing divisions, teams are playing their Seeding Round games to demonstrate if they deserve to be moved up, down, or remain at their metallic levels (Elite, Gold A, Gold B, Silver, Bronze) for the Regular Season. At this point some teams have finished half of their Seeding Round games, but with the other half still left to play a lot can still change.

Results worth noting so far are (teams with at least 4 games played):
