

Note from the President: April 2026

By Professor Charlotte Benson, ACVA President

Hello Dear Friends of ACVA!

Welcome to another edition of the ACVA Newsletter – please enjoy our excellent articles. We hope that all is well with you and your families wherever you are. Om Shanti - may peace prevail! ACVA has the great good fortune to be able to add the energy and expertise of Mr. Pratik Mehta to our Leadership Team. He is an IT professional with a broad education in Jyotisha, and a real love for the sacred sciences. You will be familiar with Mr. Mehta's work through his series of technical articles published here lately, or through his recent webinar. He will serve as ACVA's Director of Social Media and Community Engagement. Welcome Pratik!

This month, Ms. Guylaine Vallee' presented "Integrating Astrology & Palmistry" to our ACVA members. Her case study approach offered wonderful examples of the interaction between Jyotish and Hasta Rekha Shastra, otherwise known as Hast Jyotish). I think that this under-appreciated sister science is well worth studying and practicing. Thank you Ms. Vallee'!

ACVA is still very busy behind the scenes, preparing for the UAC Conference in Chicago, September 3 – 9, 2026. It will be lovely to meet you in person there! To register:

www.uacastrology.com

Please consider becoming an ACVA member. You can read about the benefits of membership, and sign up here: <https://acvaonline.org/membership>

Thank you to our recent donors. You help make ACVA, our labor of love, manifest!

Until we meet again, be well.

Fondly,

Charlotte

Professor Charlotte Benson (Jyoti Devi)
