June 6, 2022

Dear Community Partners,

Each year the American Hospital Association (AHA) recognizes the second week in June as Community Health Improvement Week, a time to celebrate and honor those working in partnership to improve the health and well-being of individuals and communities. Your partnership with Atlantic Health System (AHS) plays a crucial role in this work and we want to thank you.

Atlantic Health System has grown over the last 26 years and a large part of our success in building healthier communities has been expanding and growing our partnerships with all of you! Your commitment to serving our community members and to advance public health is vital in the work we do, and we are extremely thankful and proud to work with you on these goals.

Navigating the pandemic over these past few years has placed a spotlight on the importance of strong cross-sector partnerships — like ours — that improve the health and well-being of all people in our communities. We look forward to continuing our partnerships far into the future while working on important community health priorities and social supports toward the best outcomes for our patients and communities. Together, we are helping to make a positive and lasting difference.

Thank you again for your partnership and work to build stronger and healthier communities in New Jersey.

In good health,

Laura Hawkins
