

# TOP SECRETS OF IMPLEMENTATION

Taking action and following through with implementation can be difficult often fraught with potholes, pitfalls, and the lure of shiny objects. Don't let your cause "die on the vine." In this course, you'll learn techniques that will help you keep plans and projects alive, relevant, doable, and achievable. ToP Secrets of Implementation can be used to revive plans, projects, programs, or initiatives.

This two-day course is designed to explore a variety of challenges we all face with keeping plans on track. Join your peers in a learning community environment to reflect on your own and each others' experiences as well as gain additional tools for your toolbox that will help keep things moving in a positive direction.

## Participants will learn to:

- Initiate dynamic plans
- Develop a shared vision and understand its implications for the team
- Engage cross-functional groups in the review of timelines and commitments
- Anticipate the ups and downs of implementing strategies
- Generate practical and creative solutions as challenges arise
- Review and reconfigure stalled or misaligned projects
- Sustain momentum and bring plans to concrete conclusions
