

# A Framework for Understanding Economic Diversity: Improving SBH

March 20, 2018 | Noon - 1:00 PM

Poverty is defined as the extent to which an individual does without resources. Several resources that influence achievement include: financial, emotional, mental, spiritual, physical, support systems, role models and knowledge of hidden rules. Please join us for a unique conversation with Idress Gooden, WV Adolescent

Health Coordinator, known for her expertise on this subject. This hour long discussion will address how poverty impacts our ability to provide care in school-based health centers and offer ways to improve student wellness.

## Objectives

At the conclusion of this workshop the participant will:

- Recognize the difference between the three economic classes;
- Identify the importance of relationships and education in moving out of poverty;
- Recognize that organizations and systems have hidden rules that may be different from those living in poverty; and
- Identify how your new understanding of economic diversity may impact your SBHC.
