American Heart Association®
CAMC Institute
GK VF

SYMPOSIUM OBJECTIVES:

At the conclusion of this course, participants should be able to:

1. Identify stroke and medical aspects of stroke care

2. Identify current treatment options for stroke care and advances in neuro-intervention

3. Describe stroke program development and discuss telemedicine consultation capabilities

4. Identify components to achieve hospital stroke certification

TARGET AUDIENCE

This program is designed for physicians, mid-level providers, nurses, pharmacists, emergency medical personnel, rehabilitation specialists, and health care providers with an interest in stroke care.
