**The SC Senate continues to stall on passing a real
plan to fix our bad roads.**

TELL YOUR SENATOR TO GET IN GEAR AND #FIXSCROADS

Following approval by the Senate Finance Committee, the roads bill is now headed to the Senate floor.

This is a critical time in the fight to secure a real plan to fix South Carolina's crumbling roads and bridges, and we need your help to ensure the roads bill is set for debate.

The out-of-state pothole lobby will be out in full force, saying anything they can, to stop this bill from passing in the Senate.

The pothole lobby are willing to ignore the fact that driving on terrible roads costs South Carolina drivers \$5.4 billion a year in auto repairs, safety hazards, and time lost in traffic.

The cost of poor roads is a "hidden tax" of over \$1000 per South Carolina driver, per year.

But the roads bill is dedicated source of funding will repair and improve our crumbling highway system, eliminating this hidden tax - all while sharing the burden of paying for road improvements with out of state drivers.

Tell your senator to set the roads bill for debate, today!

[CONTACT YOUR SENATOR](#)

Your thousands of phone calls, emails, and social media contacts have been essential in moving the roads bill to this point. However, there is still a long road ahead and many opponents in our way.

We need your help in encouraging Senators to support this bill, an investment in South Carolina's safety and economic future.

Each day, poor road conditions impact quality of life for South Carolina's citizens. Crumbling roads cost us:

Time.

South Carolina motorists lose over 18 million hours every year sitting in traffic.

Money.

SCDOT estimates that traffic congestion in the Palmetto State has cost our economy \$2.6 billion.

Lives.

South Carolina's roads are second most dangerous in the nation with over 900 deaths occurring annually.

To fix our state's crumbling roads, we need your support. We ask that you contact your senator and urge them to set the roads bill for debate. Use the form below to tell them you support passing a plan to #FIXSCROADS.
