Dear Lower School Parents:

I have had the opportunity to visit most of our classes to see the amazing teaching and learning that is taking place every day at Valwood. I believe very strongly that students retain more information when they are engaged in their lessons. It is my desire to work with our great teachers and staff daily in an effort to continue challenging our students. We have a great staff, great students, and great parents at our school. Together we can provide the best education possible for our student body. Finally, this week was the 17th anniversary of September 11th. Do you remember where you were on this day 17 years ago? We should never forget the brave Americans who lost their lives on that tragic day. Say an extra prayer for those victims and pray daily for our great country.
