

DIY Beaded Mask/Glasses Chain

Materials List

- 2 Lobster Claw Clips, 2 glasses chain ends
- Crystal bead cord
- Beads

Step 1

Tie the end of cord to one of the lobster claw clips with a knot.

Step 2

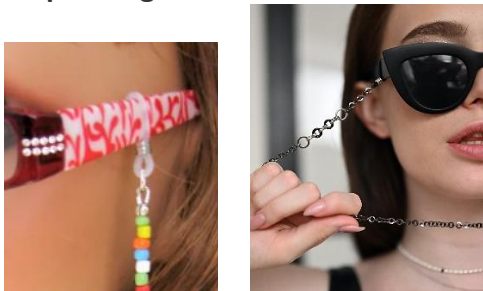

Start threading beads onto the cord. You can use any kind of beads you like, just keep in mind that they should be smooth so they don't irritate your neck.

Step 3

When you have finished beading, tie the other lobster claw clip to the cord with a knot.

Step 4 for glasses chain

Attach the 2 glasses chain ends to the lobster claw clips and let them hold the earpieces of glasses (make sure it is tight, otherwise the earpieces will go loose).
