

## OPERATION MANUAL

# DIY Lotion Workshop

### **Material:**

Extra virgin olive oil 15cc/ml (3 tsp)

Simple emulsifier (Creagel) 0.6cc/ml (about 1/4 teaspoon 70% full)

Pure Water 80cc/ml (16 teaspoons)

Glycerin 5cc/ml (1 tsp)

Cosmetic grade antibacterial agent 0.3cc/ml

Essential oil 5 drops

### **Efficacy:**

Moisturizes the skin, makes the skin soft and tender, prevents fine lines & wrinkles

Application skin type: dry skin

### **Equipment used:**

Small dropper, measuring spoon or cup, chopsticks for stirring, 1 clean bowl, 1 empty cream can

### **Production method:**

Put olive oil, glycerin, water, and simple emulsifier into a clean empty bottle and stir evenly, finally add antibacterial agent, and then shake well.

### **How to use:**

After washing your face or applying lotion, take an appropriate amount and apply it on your face and neck, morning and evening.
