

Balloon sculpting 2

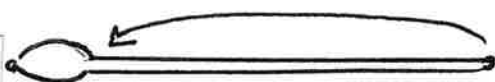

1. Stretch balloon by pulling it several times.
2. Blow up balloon with hand or electric pump.
DO NOT try to blow it by mouth.
3. Leave a 4-5 inch tail. Tie balloon.
4. Twist balloon 4-5 times at points shown in picture. The twisting will lock the bubbles. Always twist in one direction.
5. When finished twisting, you can tie the tail and cut off excess or leave it as is.
