

# Stem For Kids!

EECC's STEM program for 3 year olds (and older) is back! In this program, we encourage children to connect with the natural world using their senses, to connect with each other and make new friends. We use real tools, like magnifying glasses to observe details!

Sessions every  
Friday morning,  
starting from  
April 10th.

**SIGN UP NOW!**

It's free!  
Come join us!
