### CUTTING A SHEET

### SCORING A SHEET

### Coro Claw X 10mm Cutter

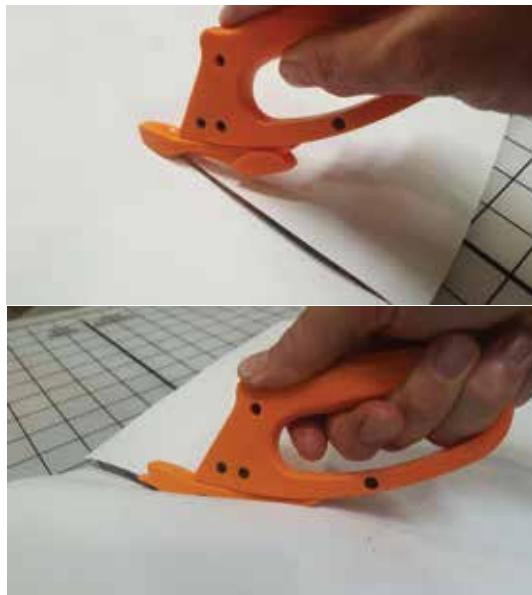

Coro Claw X with the Patented blade allows you to cut through the thick walled 10 mm Coro like butter.

- Patented Beveled Cutting Blade
- Offset and Angled Cutting Blades
- Ergonomic handle
- Handle design helps proper feeding
- Replaceable cutting blades
- Scores with Outer Prong
- Cuts with Inner Prong
- Great for POP Displays

## BIDDI SAFETY KNIFE BI-DIRECTIONAL Cutter

- For cutting banners, vinyl, laminate & more!
- Bi-directional blade cuts forward & backward.
- Ergonomic handle makes cutting a breeze!
- Replaceable blades
- Never worry about cutting your laminator or printer drum again!

Unique cutting head cuts in both a forward motion and backward motion! The blade is fully protected and will not cut into table top or printer.
