EMPLOYEE SPOTLIGHT

Mark Damon

What is your role at RRF?

I am a Sr Controls Engineer; primary responsibilities are PLC logic development.

Tell us a little about your background?

I have 40 year's experience in the manufacturing industry, working at various machine tool and factory automation companies.

What brought you to RRF?

A position opening posted on LinkedIn.
Once I was able to get in and start meeting people here, I found the company culture to be very positive.

What strengths do you bring to this job that makes you a valuable resource to your customers?

Years of work in various areas of automation using numerous different control systems helps to be able understand how a system should work.

What are some key lessons you have taken from your career thus far?

No matter how good you think you did, somebody else can always do it better.

Describe some of your hobbies – what do you like to do outside of work?

Woodworking, although I am better at staining and finishing, and various furniture and electrical repair.
