

Your Public Service Committee has been busy this summer working with and designing projects to help the children in our various programs. Thank you to the SDAHU members who participate.

Banding Together:

This is a music therapy program that provides services to children with special needs. We have committed \$2,400 to assist with scholarships.

Rady Children's Hospital Special Needs Clinic:

We have installed a sea scape mural in their waiting room for the children to enjoy. It measures 18' x 9' and has beautiful and bright colors. They just love it and it brings much joy and love.

Emilio Nares Foundation:

This organization provides no cost transportation to hundreds of children throughout San Diego, Imperial and Orange Counties, so they can have chemotherapy and radiation treatments. This roundtrip transportation is provided at no cost to the patient's family. We are going to help provide nutritious "Snack Packs" the children can have after their treatments.

By supporting our monthly luncheon restaurant raffle, funds raised can go toward expanding our programs. More news to follow about our other projects.

SDAHU does Walk the Walk...
