Aliso Viejo Country Club features one of only two private Nicklaus Design golf courses in Orange County. OUR ANNUAL CHARITY

Cystic Fibrosis Foundation's mission is to assure the development of the means to cure and control cystic fibrosis and to improve the quality of life for those with the disease.

Cystic fibrosis is an inherited chronic disease that affects the lungs and digestive system of about 30,000 children and adults in the United States. A defective gene and its protein product cause the body to produce unusually sticky mucus that clogs the lungs and obstructs the pancreas.
