### ***Wildfire Preparedness Week Events Scheduled Statewide***

**Sacramento** – Wildfire Preparedness Week is May 1 - 7, 2023. CAL FIRE and its partner agencies will host five statewide events throughout the week to raise awareness on what individuals and communities can do to help protect against the threat of wildfires. By preparing well in advance of a wildfire and taking steps now to reduce wildfire risks – both as a community and individually - we can dramatically increase our safety, the safety of our community, and the survivability of our homes.

#### **Who:**

CAL FIRE will be joined by the California Natural Resources Agency, United States Forest Service, California Office of Emergency Services, California National Guard, California Conservation Corps, and other local, state, and federal fire and emergency officials to speak about wildfire preparedness and fuels reduction projects.

#### **What:**

Wildfire Preparedness Week statewide events to raise awareness on wildfire preparedness, including how state, federal and local public safety organizations are preparing for the 2023 fire season; the importance of fuel reduction and vegetation management projects; and ways the public can prepare for wildfire now through home hardening and defensible space.
