

The State of Illinois requires all water systems to have and maintain a program to protect our drinking water (cross-connection program). The Village of La Grange Park partners with Backflow Solutions, Inc. (BSI Online) to assist in cross-connection management. A component to the program is a comprehensive mail survey of all properties on our water system.

Next Step:

Complete the Cross-Connection Survey for <<service address>>. The survey will take five minutes, if you need assistance please contact BSI at 888-966-6050 Please scan the QR code on the front or complete your survey online at: www.bsionline.com/lgp

What is a Cross-Connection?

A cross-connection is a physical connection between a possible source of contamination and the public drinking water system piping. This connection, if not properly protected, can lead to the contamination of the drinking water system through a backflow event – or when the flow of water is reversed.

Please disregard this mailing if you have already completed this survey.
