

## **NATASHA ROBARGE**

### **Vice President for Operations and Business Development at TechTrans International Inc. (TTI)**

Natasha Robarge, Vice President for Operations and Business Development at TechTrans International Inc. (TTI), has made substantial contributions to her employer, to the US Space Program, and to United States Government science, defense and humanitarian operations worldwide. Over the past 20 years Natasha managed language and logistics services across diverse geographic locations for U.S. Government customers including National Aeronautics and Space Administration (NASA), Defense Threat Reduction Agency, U.S. Navy, U.S. Air Force, Department of Energy (DOE) National Laboratories, and others. Natasha has also been instrumental in the successful cooperation between the US and Russia to advance space exploration through the International Space Station Program. Natasha received NASA's National Rotary Space Achievement Foundation Stellar Award for operational concepts and linguist training programs.
