

**ANTON (VICTOROVICH)
DRUZHININ**

**Director Operations, CIS (IG
Metran / Emerson LLC)**

After 6 years working for the Federal Grid Company, Druzhinin began working for Metran Industrial Group in 2006, where he managed the implementation of Emerson Process Management (U.S.) Systems and Solutions into Metran's existing structure. He has held numerous positions at Metran since that time, including as its first Project and Service Director, as Engineering and Development Director, and since 2012 as Director Operations. Druzhinin graduated from South Ural State University in 2000, specializing in power engineering and received an MBA degree (Management) from Moscow International Business School in 2009.
