

DECIE AUTIN

**VICE PRESIDENT,
CENTRAL PROJECT MANAGEMENT**

EXXONMOBIL GLOBAL PROJECTS

Decie Autin has served as Vice President, Central Project Management, ExxonMobil Global Projects organization since April 2019.

Prior to her current assignment, Decie served as Vice President of Project Management & Execution for ExxonMobil Development Company, and Upstream Production Operations Manager for ExxonMobil Production Company. Before that, from 2008 to September 2014, she held the position of Project Executive for the PNG LNG Project, for which her responsibilities included planning, development and execution of all aspects of the \$19B project to commercialize natural gas resources in Papua New Guinea. The project was successfully started up several months ahead of schedule in May 2014.

Decie has been with ExxonMobil for more than 35 years since graduating from Georgia Tech with a bachelor's degree in chemical engineering. She began her career in New Orleans in the offshore facilities surveillance team and moved within the organization, holding positions in facilities and mechanical engineering management, natural gas and gas liquids marketing, continuous improvement and operations. After 15 years in New Orleans, Decie moved to Houston in 1995, as a Planner with Natural Gas. In 1998, Decie joined the Upstream Development Company, where she held project management positions on Hoover-Diana (Gulf of Mexico), Thunder Horse (not operated by ExxonMobil – Gulf of Mexico) and Erha (Offshore Nigeria).

Decie is married with two children and three step-children. She enjoys traveling and birdwatching.
