

## **SVETLANA (YEVGENYEVNA) STRELNIKOVA**

### **Executive Director, SKB-Kontur**

Strelnikova has amassed significant experience working with taxation issues and technology. In the early 2000s she promoted internet-based tax reporting in Sverdlovsk Oblast, and has ten years' experience working with taxation software systems.

In 2005 Strelnikova joined SKB-Kontur. In 2007, she created the company's Customer Technical Support Center; today the Center employs over 1,000 people in four regions. As the company's Executive Director since 2015, Strelnikova supervises the financial, economic and legal services, information technology, information security, and human resources departments.

SKB-Kontur is a national leader in developing and providing software and web services, and through its business has gained extensive knowledge of Chinese markets. It is seeking to introduce in American markets its "Focus" software, which allows users to rapidly receive background information about companies. This product may be useful for companies operating or entering Chinese markets, as well as for insurance companies.

Strelnikova previously earned university degrees in mathematics (Ural State Pedagogical University), computer software and automated systems (Ural Federal University), and in government and municipal administration (Ural Academy of Public Administration).
