With acts of hatred against minorities rising in America, every voice matters, is important, and makes a difference. Join us to hear Daniel's story of being a Hispanic-American hero whose voice helps to shape the laws of our country.

Daniel will be interviewed by leaders of the Jewish, Christian and Muslim communities. Dessert reception will follow.

Daniel Hernandez Jr. is a native Arizonan and member of the Arizona State Legislature. He currently serves on the State and International Affairs and Public Safety Committees and is the co-founder of the LGBT Caucus.

In 2011, while working in the office of Congresswoman Gabrielle Giffords, Hernandez was with her during her assassination attempt and took action with which he is credited with saving her life. That day and the aftermath drove him to

advocate for Gun Violence Prevention at the state and national level, which he does to this day.
