

**Clark County Department of Aviation  
and  
Regional Transportation Commission  
of Southern Nevada**

**Disadvantaged Business Enterprise (DBE) Goals  
for Fiscal Years 2026-2028**

The Clark County Department of Aviation and the Regional Transportation Commission of Southern Nevada are setting Disadvantaged Business Enterprise (DBE) goals for Department of Transportation federally funded projects for federal fiscal years 2026, 2027, and 2028.

The Department of Aviation will establish Disadvantaged Business Enterprise (DBE) goals on all federally funded projects planned over the next three years. This applies to the following locations: Harry Reid International Airport, Henderson Executive Airport, North Las Vegas Airport, Overton-Perkins Field, and the Jean Sport Aviation Center. The Regional Transportation Commission will set goals for all federally funded projects anticipated during the same three-year period.

We invite interested parties to attend the stakeholder meeting to review the proposed goals and methodology. Participants will have an opportunity to provide information that can assist in developing the final Disadvantaged Business Enterprise (DBE) goals for the Clark County Department of Aviation and the Regional Transportation Commission.

Click the [virtual meeting link](#) if you cannot attend in person.
