CREATING A UNITED VOICE IN MINNESOTA

The Minnesota Subcontractors Association (MSA) is a nonprofit trade association that brings together subcontractors and suppliers to network, collaborate, and create legislative change. With 190 company members, we form a strong group of construction professionals who advocate and empower one another and the community. Members include both union and non-union firms from every specialty construction trade. MSA provides representation in government affairs, education, scholarships, and cooperative action for the improvement of the construction industry. We hope you'll join us!
