

# Development Director Letter

The things that motivate me are a desire to see the Lord Jesus Christ's kingdom grow and His to be done on earth as it is in heaven.

I'm interested in training up a generation of Christians who think rightly about the world in which God has placed them.

Let me tell you something else I've learned: GOD'S WORK, DONE GOD'S WAY, NEVER LACKS GOD'S SUPPLY. God impressed this upon me as I was preaching through Nehemiah. If you recall, there was a wall that needed to be built, an important wall for the protection of the city. Because the people had a mind to work, and because God was kind, the thing got built.

There is no magic formula to what I do in marketing and development. I've been at this for seventeen years. I have learned a thing or two. What do you know what it all boils down to at the end of the day? It takes lot of work: a lot of plowing, planting, and watering. Then, we look to heaven - we pray – trusting the Lord of the harvest for the increase... for His blessing. That's how it works.

I begin work at SCCS full time in July. There are a number of goals that I, the board, and the administration have set forth for my time here with you:

1. Fill seats! Every empty seat is a shame. There's no reason why every seat at this school should not be filled.
2. Stop the hemorrhaging at the secondary level. We need to create so many incentives to stay that nobody would dream of leaving. In classical education, it's at the Rhetoric stage that everything becomes full-orbed, beautiful.
3. Grow the stream of income outside tuition. We will kick off a capital campaign in the next academic year to continue the build-out of the SCCS campus.

This is a very exciting time in the life of the school. It's a privilege to be joining you at this point in your history.

Please pray for God's blessing on our efforts. Without His blessing, all our labors are in vain.
