

Grammar School Life

This week in math in Mrs. Razzano's class, the class had to solve a series of math problems, figure out the clues, and find the key to "break-in" to their boxes. Inside were Valentine's from Mrs. Razzano. They also were in math stations which included, candy heart graphing, comparing numbers playing Queen of Hearts, and reviewing 2-digit subtraction with regrouping using dimes and pennies.

Dr. Beavers' 2nd graders made games of Senet during history lesson. This is a game Egyptians played. In Science, they are learning about the life cycle of fruit flies. They also made bird hats like the one worn by Egypt's first woman Pharaoh- Queen Hatshepsut.
