Training Description

Overview:

The facilitated training days with Wayne Callender and NDMTSS Coaches will assist teams as they look closely at their most current benchmark data to determine the overall effectiveness of their MTSS process. Teams will come away with an enhanced understanding of how to use their data to guide and strengthen their MTSS process to ensure all students succeed.

Objectives:

- Conduct effective data meetings
- Create Assessment Calendar
- Problem solve
- Reevaluate MTSS system
- Revisit walk to learn and, new student protocols

2 Graduate Credits Available through Valley City State University.
