Every seat in the U.S. House of Representatives, roughly one-third of the U.S. Senate, key gubernatorial offices, state legislatures, and local ballot initiatives on the ballot. These decisions directly shape the health and well-being of our neighbors, our communities, and God's creation. With so much at stake, we are called as people of faith to ensure that every voice is heard and every vote counts in determining our shared future.

These midterms present a critical opportunity to elect leaders in Congress who will hold the administration accountable, defend our democratic institutions, and lead with values rooted in justice, compassion, and faithful stewardship of creation. A healthy, inclusive democracy is essential to fulfilling our sacred calling to protect, restore, and rightly share God's creation.

We've compiled a series of resources from partners and friends in this work – double check your voter registration, make a plan and know your voting rights. Join us in voting for Creation this midterm election. See you at the polls!
