HEALTH SCREENINGS  
Now you know.

"When I had the screenings done, the ABI examination indicated an abnormal result. A full ultrasound of that leg by a vascular nurse indicated a full blockage of the artery from my groin to my left knee. Three stents were put in with complete success, opening the artery and restoring full function. Thank you for your program."

Bobby, Tucson, AZ

A. Neither the speaker, his/her employer, nor any of their respective affiliates is an employee, agent, or in any way affiliated w/ Quail Creek Homeowners Association (the "Association"), Quail Creek Dev., Quail Creek Mgt. Co., Robson Communities, Inc., or any of their affiliates (collectively referred to herein as the Quail Creek Entities). B. Neither the content of the seminar nor qualifications of the speaker, his/her employer nor any of their respective affiliates have been verified or approved by any Quail Creek Entities in any way; rather the speaker has merely contracted with the Association to use the facilities.

## CARDIOVASCULAR SCREENINGS

### **HEART ULTRASOUND**

Screening visualizes the heart valves, measures systolic function, the motility of the left ventricle, ejection fraction and dimensions of the atrium and ventricles.

### **ATRIAL FIBRILLATION**

Atrial Fibrillation is a heart rhythm problem found in almost one in every 150 people causing palpitations, shortness of breath, fatigue and risk of stroke.

### **STROKE SCREENING**

#### **(CAROTID ARTERY ULTRASOUND)**

Stroke is the most common cause of long term care admissions in the US. This screening visualizes the level of plaque buildup in the carotid arteries.

### **THYROID ULTRASOUND**

Screening detects cysts, nodules and other abnormalities that may indicate signs of thyroid disease.

### **PERIPHERAL ARTERIAL DISEASE (PAD)**

Peripheral Arterial disease (PAD) is a condition where blood circulation is restricted in the legs. It affects over 8 million Americans. This screening detects signs of circulatory problems in the lower extremities.

## ABDOMINAL ULTRASOUND SCREENINGS

### **ABDOMINAL AORTIC ANEURYSM**

Aneurysms form as a result of weakening in the arterial wall. This ultrasound screening detects aneurysms in the aorta which is the largest artery in the body.

### **LIVER**

The screening scans for cysts, nodules, masses and texture/density/size changes in the liver.

### **KIDNEY**

The screening scans for cysts, nodules, masses, stones, fluid and other abnormalities.

### **GALLBLADDER**

The screening scans for stones, sludge, wall thickening and other abnormalities

### **PANCREAS**

The pancreas is an important organ providing essential hormones and digestive enzymes. This screening detects small lesions, abnormalities and other signs of disease.

### **SPLEEN**

The spleen is an essential organ to the immune system and red blood cells. The screening detects any enlargements and other abnormalities.

## **ALL 11 SCREENINGS FOR ONLY \$200.00**

Appointments are required. Please call 602-254-7130.

Wear a two-piece outfit. A minimum 4-hour fast is required with the Abdominal Package.
