

LOCATION EQUIPMENT SUPPLY FEATURE SHEET

As well as all your regular location equipment needs our Location Equipment department are able to offer a selection of products to assist in maintaining physically distanced personnel. Below is a selection of equipment available to you;

[Pop Tents](#)

Our tents and shelters assist in creating quick options for segregating people and gear in remote locations and tight urban areas along with helping minimize weather effects. 8x8, 10x10, 10x15, 10x20 pop-ups available.

[Air Quality Equipment](#)

Air quality is ever more imperative during the current pandemic climate, we carry 750cfm and 2000cfm 120v Air Scrubbers to keep your indoor space safe, all units come with 3 x stage filters including Hepa.

[Port A Bell Light System](#)

Port A Bell (Bell and Light) systems allow for less human interaction in and around sensitive areas of a set, studio or shooting location. The ability to have 4 to 12 units under one crew members control.

[Generators](#)

Power can be the issue, WLES has smaller Honda units available (2K, 3K, 7K) film friendly and very quiet, better yet; we now have 6K [MovieQuiet](#) battery packs. Whisper quiet while saving fuel costs and air quality.

[Traffic Cones, Barriers & Delineators](#)

Traffic control, the small unsung hero of any film shoot; traffic cones. We carry cones, delineators, crowd control stanchions and 10' x barricades to be able to help you create barriers and flow for your shooting and prep areas.
