

RESEARCH STUDY: SHARED BOOK READING WITH INFANTS AND TODDLERS

Are you the parent or caregiver of an infant or toddler between the ages of 0-3 years?

If you answered **YES** to this question, your family may be eligible to participate in a research study. The purpose of this study is **to learn more about the behaviors caregivers and young children exhibit during shared book reading, and how those behaviors relate to later language development.** Benefits include free communication evaluations and an incentive payment.

☐ **Yes, I am interested in participating in this study.**

Please provide your contact information, and a research assistant will contact you using your preferred method.
