

# JULY NEWSLETTER

KATIE'S KIDS

ROOM 7

## *Community Helpers Highlights*

We will be wrapping up our Community Helpers Project at the beginning of this month. We have learned interesting facts about a few of the community members such as doctors, farmers, firefighters and police. Some of our favorite activities were putting out the shaving cream fire, sheering sheep, helping to plant our classroom garden, and many more..

## *Project Based Curriculum*

As we continue into the month of July, we will be looking at the children's interests to guide us into our next project. Katie's Kids is a project based learning center. We choose the projects based on the children's interests and hobbies and design our lessons around what they need to know through a curriculum they chose.

## **IMPORTANT DATES:**

Fourth of July Closed	4
SNL	15
Open House 9a.m-11a.m.	22

## *Tents and Camping?*

Mr. Matt and I have noticed the students have a strong interest in building tents or forts. There are many days they pull the chairs and blankets over and start building on their own. We hope to start introducing camping and tent lessons and see where this will lead us.
