

### The Charities of the WBC

The women in business Council strives to empower all women in the Saint Charles business community and the broader community to achieve their best. There are numerous business connections, education and friendship. Everyone is welcome at the WBC not just women. We host monthly luncheons with a variety of topics that are important to many different audiences and genres. At the luncheons we raise raffle money with wonderful gift baskets as prizes and the money goes to charities that the Board of Directors chooses each year. Three different charities are selected each year. This is what drives our mission at the WBC to give back to the community that serves each of the most wonderful people in our business and professional community

With Sincerity
