

### Advanced Disposal

#### A little bit about Advanced Disposal

We've carefully developed and operate cutting-edge, environmentally safe waste disposal facilities, and we continually provide the most up-to-date environmental solutions for non-hazardous waste reduction and disposal. We have the operational expertise, management strengths, financial capabilities and commitment to quality and the environment. We'd like nothing more than to have the opportunity to provide you with quality service, and to care for your business, home or community with the unfailing responsiveness and reliability we're known for.

We share a responsibility with our customers for protecting the environment and benefiting the communities where we work. Safety and sustainability is woven into the fabric of what we do every day to deliver service to our customers. We are dedicated to finding and implementing sustainability solutions to reduce vehicle emissions, convert waste into renewable energy, and responsibly managing the materials we collect and process. Together, we are "Advancing" positive change to preserve the planet for future generations.
