## CHARITABLE TUITION PARTNERSHIP

When determining tuition, we try to keep a balance between affordability and accessibility for our families and the strategic needs of the school. We encourage our families to keep in mind that the actual cost to educate a student is greater than the paid tuition. Recognizing that many CCC families can still support the actual costs associated with their child's education, we ask each family to partner with us in the financial costs associated with a CCC education by supporting our *Charitable Tuition Partnership*. We are grateful to those parents listed below who participated in our Charitable Tuition Partnership by making a gift toward the actual cost of their child's education at CCC.
